

Oregon State University in Congressional District 3

Oregon State University is Oregon’s fastest growing university with nearly 28,000 students. During the last five years, the university has attracted more valedictorians and salutatorians from Oregon high schools than any other university in the state. Last year, OSU faculty earned more than \$263 million in research grants and contracts. OSU is one of only two land, sea, space and sun grant institutions in the United States.

OSU research is primarily conducted on the OSU campus in Corvallis, but it has statewide and global implications. OSU generates more than \$2 billion in annual economic impact through our teaching, research, outreach and engagement. OSU’s main campus is located in Corvallis, and the OSU–Cascades branch campus is located in Bend. OSU operates the Hatfield Marine Science Center in Newport as well as 15 agricultural experiment stations and research centers and six forest research laboratories around the state. OSU Extension has offices and programs in all 36 Oregon counties, and there are two Extension offices and one Agricultural Experiment Station, the Food Innovation Center, in Oregon’s Third Congressional District.

Academic year 2013-14

Undergraduate students	3,948
Graduate & professional students	440
Undergraduate degrees awarded in 2013	762
Graduate and first professional degrees awarded in 2013	114
OSU alumni	24,383
Full-time employees	515.11
Payroll	\$20,106,799

2013-14 federal financial aid to CD3

Type of Aid	Students	Value
Pell Grants	1,285	\$5,542,004
Federal Work Study	212	\$441,168
Ford Direct Loans	2,284	\$25,246,235
Perkins Loans	300	\$473,605

Oregon is our campus

Oregon State University maintains 64 physical locations throughout the state. These locations are supplemented by the virtual presence of OSU Extended Campus and Oregon Open Campus programs, making the university a vital partner in workforce and economic development, locally focused research, public health assistance and other issues.

OSU facilities in Congressional District 3

OSU Extension Service

OSU Extension Service faculty work with businesses, growers, foresters, youth, community leaders and OSU scientists to solve problems and conduct research relevant to the communities where they live and work. Results from that research circle back to the community through OSU Extension programs like 4-H youth development, family and community health and agriculture and natural resources.

Oregon Agricultural Experiment Station

Food Innovation Center

The [Food Innovation Center Agricultural Experiment Station](http://FoodInnovationCenterAgriculturalExperimentStation) is a resource for client-based product and process development, packaging engineering, and shelf life studies. Research at the FIC develops innovative processing and packaging technologies. The FIC also contributes scholarly research in agricultural economics and marketing as well as local, national, and international marketing access and development through the Agricultural Development and Marketing division of the Oregon Department of Agriculture, which is co-located at the FIC. The FIC increases the marketability of a diversity of crops and products from every corner of Oregon.
