

Oregon State University in House District 2

Oregon State University is Oregon's fastest growing university with over **31,000 students**.

Founded in 1868, and celebrating its **150th anniversary** this year, Oregon State is the state's Land Grant university and is one of only two universities in the U.S. to have Sea Grant, Space Grant and Sun Grant designations as well.

With **\$441 million** in external research funding in 2017, a second consecutive year of record-breaking growth, Oregon State accounts for more research funding than all of the state's comprehensive public universities combined.

OSU-Cascades in Bend is the only baccalaureate and graduate degree granting institution based in Central Oregon. OSU-Cascades expanded to a four-year university when it welcomed its first freshman class in fall 2015, and graduated its first baccalaureate class in 2017.

Cross-Laminated Timber (CLT) is a sustainable engineered wood product developed in the OSU College of Forestry and manufactured by several Oregon timber companies.

We're OUT THERE

OSU maintains 64 physical location in all 36 counties across the state.

IMPACT OF EXTENSION

The Oregon State University Extension Service celebrates over 100 years of educational outreach. serves the people of Oregon in the areas of sustainable earth ecosystems, human health and wellness, and economic growth and community vitality through research and Extension programs. Extension works in partnership with Oregon communities to create positive change for youth, families, business and industry. Programs include 4-H Youth Development, Family and Community Health/SNAP-Ed, Oregon Sea Grant, OSU Open Campus, forestry, and agriculture and natural resources.

OUR RESEARCH MATTERS

OSU research helps drive discovery, innovation and economic stability in Oregon and all over the world. In FY17 OSU faculty and staff earned \$441 million in research grants, contracts and licensing revenues.

OSU has seen three consecutive years of growth across all aspects of our institution's world-class research enterprise. Oregon State is now the largest research university in Oregon, a major economic driver in the region.

So what are the impacts of OSU research? They arise when a student graduates with research experience on her resume, when data inform state or federal policies and when new businesses roll out of OSU intellectual property. The work that we do — whether improving public health, starting a new business or solving a problem for an Oregon company — creates immediate and visible impacts in Oregon communities.

Research Highlight – Wave Energy

Supported by a \$35 million U.S. Department of Energy grant, the Pacific Marine Energy Center-South Energy Test Site will be the first full-scale, grid-connected wave energy test site in the United States to support the development, testing, and commercialization of wave energy conversion technology and Will bring significant economic and educational development benefits in Oregon.

150 YEARS OF SERVICE

On October 27, 1868, Corvallis College became the state's official land grant institution, and the "people's school" of Oregon.

Join us in 2018 to celebrate 150 years of Beaver Nation!
