Oregon State University’s impact as a major internationally recognized public research university brings increasing and significant impacts on Oregon’s economy. In 2014, economists from ECONorthwest estimated that OSU’s annual economic footprint was $2.32 billion – an increase of 15 percent from 2011. Half of Oregon State’s economic impact occurs outside of the Corvallis area and the university’s activities in 2014 were responsible for 31,660 jobs statewide. Oregon State’s statewide economic impact is unique, as OSU has a physical presence and operations in each of Oregon’s 36 counties.

- Gifts: $53,751,000 (5%)
- Capital and Debt Service Appropriations: $1,084,000 (>1%)
- Capital Grants and Gifts: $67,614,000 (6%)
- County Appropriations: $10,005,000 (1%)

### 68 undergraduate students—representing 15% of the undergraduates from your district—receive financial support from OSU’s Bridge to Success Program.

Oregon State University’s Bridge to Success Program, now in its ninth year, covers all tuition and fee costs for more than 2,300 in-state students. Additional funds cover books and supplies for about a third of those students. Any financial aid applicant who meets Pell Grant and Oregon Opportunity Grant eligibility and shows satisfactory progress toward degree completion is automatically considered. It is the largest financial aid program of its kind in Oregon.

The OSU Statewides in your district

OSU Extension Service
OSU Extension Service serves the people of Oregon in the areas of sustainable earth ecosystems, human health and wellness, and economic growth and community vitality through research and Extension programs. Located in all 36 counties, Extension works in partnership with Oregon communities to create positive change for youth, families, business and industry. Programs include 4-H Youth Development, Family and Community Health/SNAP-Ed, Oregon Sea Grant, OSU Open Campus, forestry, and agriculture and natural resources.

Eastern Oregon Agricultural Research Center
The two locations of OSU’s Eastern Oregon Agricultural Research Center — Union and Burns — focus on healthy cows in healthy ecosystems. In Union, OSU researchers work closely with the U.S. Forest Service and The Nature Conservancy to find ways in which cattle can coexist with native fish, birds, and other wildlife within critical natural systems. In Burns, OSU researchers share offices with the USDA Agricultural Research Services and work closely with the Bureau of Land Management and ranchers who graze cattle on BLM allotments across the sagebrush and grasslands of the high desert.

Hermiston Agricultural Research & Extension Center
Hermiston Agricultural Research & Extension Center is at the heart of a region where irrigation has transformed bunchgrass prairies into one of the most productive agricultural areas in the Pacific Northwest.

Phil Hamm, Director
541-567-6337
Philip.B.Hamm@oregonstate.edu

Columbia Basin Agricultural Research Center
Dryland agriculture is the focus of research at OSU’s Columbia Basin Agricultural Research Center. Highly productive soils help make the Columbia Basin one of the world’s premier wheat-producing regions, despite average precipitation at less than 10 inches a year.

Oregon is our campus

Oregon State University maintains 64 physical locations throughout the state. These locations are supplemented by the virtual presence of nationally recognized Ecampus and Professional and Continuing Education programs, making the university a vital partner in workforce and economic development, locally focused research, public health assistance and other issues.
